REMARKS

Aerodrome is open to public but a notification before arrival is appreciated.

Avoid overflying of populated area in the surrounding of the aerodrome. Adherence to the published traffic patterns is appreciated.

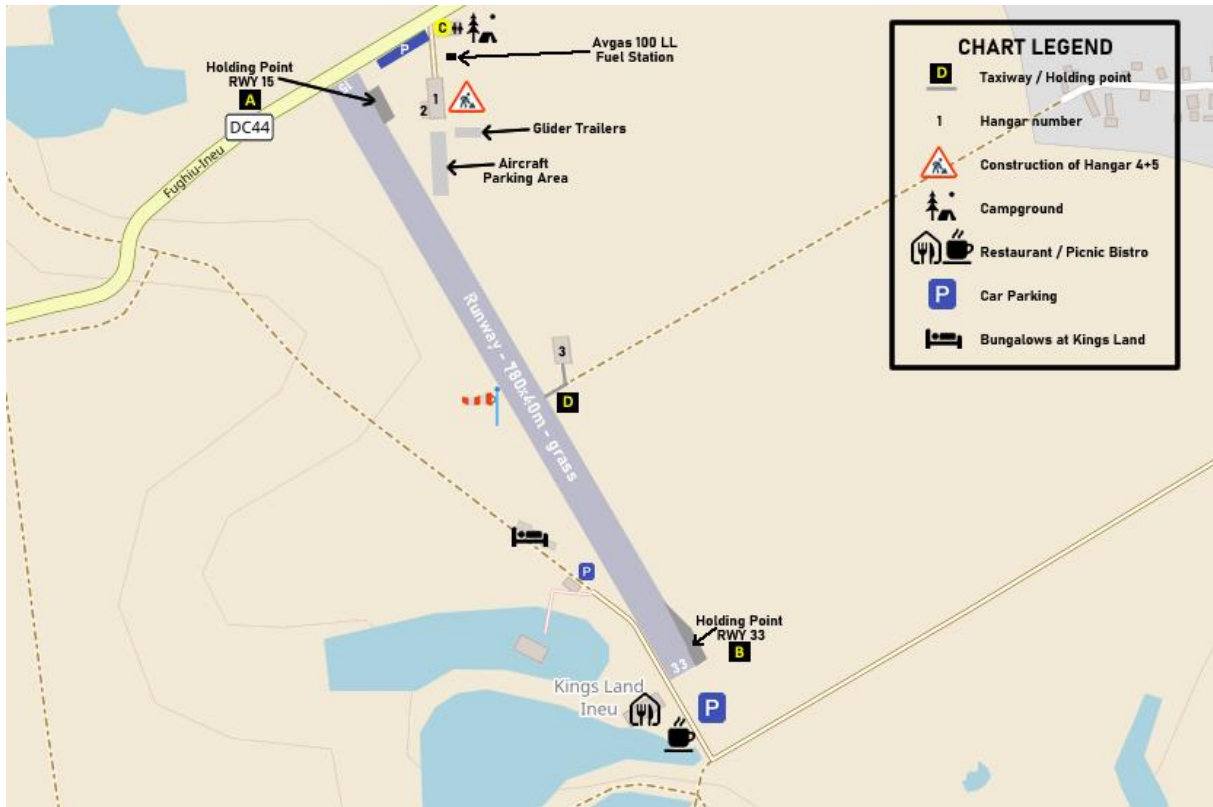

For situational awareness of all local traffic advise entering pattern, base-leg, final, leaving and entering the runway via radio.

Check both approach sectors and announce before entering the runway.

Powered aircraft shall stay clear of runway during run-up and pre-flight checks, entering the runway is only permitted when ready for T/O.

Be aware of gliding and training activity!
